

PARTICIPATE IN STATE PUBLIC HEARING

Have you or a loved one experienced problems obtaining prescriptions when discharged from a hospital? Maryland Legislators have appointed a special task force to review prescription obstacles that may affect your recovery after leaving the hospital. The Health Care Access Task Force (SB 257) needs to hear from YOU before reporting recommended strategies to legislators. Former hospital patients, Seniors, Health advocacy groups, and concerned citizens are invited to testify during the public hearing in Annapolis, Maryland. Your testimony will help assure that all hospital patients in Maryland can easily acquire prescription medications when they are discharged from hospitals!

Date and Time: October 28, 2014 5-7 pm

Location: House Health and Government Operations

6 Bladen Street, Annapolis, MD 21401

House Office Building, Room 240

Picture ID required to enter the building
